

Niko Provides Corporate Update

CALGARY, ALBERTA (October 9, 2018) – Niko Resources Ltd. (“Niko” or the “Company”) (TSX – “NKO”) provides the following updates:

- To date, the Company has not been successful in its efforts to sell its interest in the D6 Block in India or secure financing for funding of its share of the R-Cluster, Satellite Cluster and MJ development projects in the block. While these efforts are continuing, to conserve its remaining cash (approximately \$3.6 million as of September 30, 2018), the Company elected not to pay a D6 Block cash call that was due.
- Under the terms of the joint operating agreement (“JOA”) between the participating interest holders in the D6 production sharing contract (“PSC”), if a cash call is not paid, the operator of the D6 PSC could issue a default notice to the defaulting party and during the continuance of a default, the defaulting party shall not have a right to its share of revenue (which shall vest in and be the property of the non-defaulting parties who have paid to cover the amount in default). In addition, if the defaulting party does not cure a default within sixty days of the default notice, the non-defaulting parties have the option to require the defaulting party to withdraw from the D6 PSC and JOA.
- Under the terms of the Company’s Facilities Agreement with its senior lenders (the “Lenders”), the receipt of the default notice from the operator of the D6 PSC would result in an event of default unless the default under the D6 JOA is cured within 10 days. As such, if a default notice is received from the operator of the D6 PSC, the Company intends to then request that the Lenders waive such default. The Company has consulted with the Lenders about its liquidity situation and will continue to have discussions with the Lenders with whom the Company believes it has a positive relationship.
- As well, if a default notice is received from the operator of the D6 PSC, the Company intends to request, under the terms of the Facilities Agreement, that some or all of the Lenders provide a senior loan facility for funding of D6 Block expenditures. None of the Lenders are under any obligation to provide this loan facility.

If the default under the D6 JOA is not cured on a timely basis and the non-defaulting parties request that Niko withdraw from the D6 PSC and JOA, then this will have a material adverse impact on the Company’s stakeholders. No assurance whatsoever can be made that the Company will be able to meet its funding requirements under the D6 PSC or its other obligations on a timely basis or at all.
