

QUARTERLY REPORT
FOR THE QUARTER ENDED SEPTEMBER 30, 2021

November 29, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Niko Resources Ltd. ("Niko" or the "Company") is a company incorporated in Alberta, Canada. The address of its registered office and principal place of business is Suite 1500, 205 – 5th Avenue SW, Calgary, Alberta, T2P 2V7. The Company was engaged in the exploration for and development and production of oil and natural gas, primarily in India and Bangladesh. Effective March 13, 2019, the Company's common shares and convertible notes were delisted from the Toronto Stock Exchange ("TSX").

The following Management's Discussion and Analysis ("MD&A") of the financial condition, financial performance and cash flows of the Company for the three and six months ended September 30, 2021 should be read in conjunction with the condensed interim consolidated financial statements for the three and six and six months ended September 30, 2021. Additional information relating to the Company, is available on SEDAR at www.sedar.com and on the Company's website at www.nikoresources.com. This MD&A is dated November 29, 2021.

The MD&A contains forward-looking information and statements. Refer to the end of this MD&A for the Company's advisory on forward-looking information and statements.

LIQUIDITY AND CAPITAL RESOURCES

Commencing June 2016, the Company ceased receiving revenue related to the 60 percent interest of its indirect subsidiary, Niko Exploration (Block 9) Ltd. ("Niko Block 9"), in the Block 9 production sharing contract ("PSC") in Bangladesh, due to legal cases related to this and other ownership interests in Bangladesh (see Note 21(a) to the audited consolidated financial statements for the year ended March 31, 2021 for further details on these matters). In addition, since fiscal 2019, the Company has been in default of its Facilities Agreement (see Note 10 to the audited consolidated financial statements for the year ended March 31, 2021) with its senior lenders (the "Lenders") and has not recognized or received any oil and gas revenue. At September 30, 2021, the Company has significant existing liabilities, obligations and contingent liabilities (see Note 21 to the audited consolidated financial statements for the year ended March 31, 2021). An adverse outcome on one or more of the claims impacting the Company and its subsidiaries could significantly and negatively impact the future cash flows of the Company and further deteriorate its overall liquidity. Currently, the Company's primary focus is on attempting to realize value related to amounts for which the Company believes are owed to its subsidiaries that hold interests in Bangladesh and attempting to collect income and other tax refunds in India, with any realized value likely to be for the ultimate benefit of its Lenders. There is no guarantee that the Company will be successful in realizing any value in these endeavors.

As a result of the foregoing matters (including the obligations, defaults and contingent liabilities of the Company and its subsidiaries), there are material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern.

These condensed interim consolidated financial statements for the three and six and six months ended September 30, 2021 do not reflect the adjustments or reclassification of assets and liabilities which would be necessary if the Company were unable to continue as a going concern and therefore be required to realize on its assets and liabilities in other than the normal course of business and potentially at amounts significantly different from those recorded in these financial statements.

India

In May 2021, Niko (NECO) Ltd., an indirect subsidiary of the Company, received a refund of \$5.3 million for GST previously paid with respect to the D6 settlement transaction of January 2020 (see Note 2 to the audited consolidated financial statements for the year ended March 31, 2021) after receiving a ruling from the GST department of India that GST was not applicable to the transaction. The GST refund was reflected in discontinued operations in the first quarter of fiscal 2022 as other income. In September 2021, the Company received certain consents from the Lenders under its amended and restated facilities agreement and the Company subsequently distributed \$3.0 million to the Lenders and retained \$2.3 million in a reserve account to be released only for payments related to arbitration disputes in Bangladesh and general and administrative expenses in India.

Bangladesh

In fiscal 2011, an indirect subsidiary, Niko Resources (Bangladesh) Ltd. ("NRBL"), filed two arbitration cases under the rules of International Centre for Settlement of Investment Disputes regarding i) the "Payment Claim": a dispute over payment for gas delivered from the Feni field from November 2004 to April 2010 under the Feni Gas Purchase Sales Agreement with Petrobangla and ii) the "Compensation Claim": a dispute over compensation claims arising from the uncontrolled flow problems that occurred in Chattak field in January and June 2005. In fiscal 2020, Niko Block 9 filed an arbitration case (the "Block 9 Claim") against Petrobangla and the Government of Bangladesh under the rules of ICSID regarding a dispute over non-payment of amounts due from Petrobangla under the Block 9 gas and condensate purchase and sales agreements and effective expropriation of Niko Block 9's 60

percent interest in the Block 9 PSC and in September 2021, the three-member tribunal for the Block 9 Claim was formally constituted. Also in September 2021, the tribunal for the Payment Claim issued an award of approximately \$44 million in favor of NRBL. There is no assurance that Petrobangla will comply with the award of the tribunal and as such, no amounts have been recorded in these consolidated financial statements. The final hearings on the Compensation Claim occurred in November 2021. In fiscal 2021, the Company recorded a provision of \$2.2 million for the Compensation Claim (refer to note 21(a) of the audited consolidated financial statements for the year ended March 31, 2021 for further details).

Contingent Liabilities

The Company and its subsidiaries are subject to various claims from other parties, as described in Note 21 to the audited consolidated financial statements for the year ended March 31, 2021, and are actively defending against these claims.

(1) Refer to Note 2 for further information.

The estimated fair value of the Term Loan is determined using various factors including the evaluation of any net proceeds that may be payable under the Waterfall Distribution mechanism. As at September 30, 2018, the Company determined that the realization of value from its property, plant and equipment and exploration and evaluation assets, inventory, restricted cash, income tax and other receivables was substantially dependent on uncertain events that were not wholly within the control of the Company. As such, the Company recognized impairments of these assets, net of associated liabilities, reducing the carrying value of these balance sheet items to nil. As a result of the impairment of the assets noted above, the Company revalued its Term Loan as at September 30, 2018 to nil. In September 2021, the Company revalued its long-term debt to \$3 million (resulting in a loss on revaluation on long-term debt of \$3 million), distributed \$3 million to its Lenders and retained \$2.3 million in a restricted account to be released only for payments related to arbitration disputes in Bangladesh and general and administrative expenses in India.
